QUALITY ENERGY EFFICIENT
LUMINAIRES

LED Fixture Limited 5 Year Warranty

Subject to the provisions set forth, Lumax Lighting warrants its commercial grade fixture's electrical components, installed within the fixture, to be free from defects in material and workmanship for a period of (5) year, from the date of manufacture, unless otherwise noted on the individual fixture specification sheet and/or literature. These components include the driver and the lighting emitting diodes (LEDs), installed by Lumax Lighting within the Luminaire subject to exclusions, as detailed below. There are no other implied warranties.

This limited warranty applies when the Luminaire and its Components are properly installed by a qualified electrician, with local code compliance. Non-Electrical Components are warranted for a period of one year only, as outlined in the Lumax Lighting Standard Warranty.

Light Emitting Diodes (LED's) will be considered defective in material or workmanship, only if 15% or more fail to illuminate, per each board. Remedy and Liability limited to repair or replacement of the defective Components only, at Lumax Lighting's choice. Lumax Lighting does not consider LEDs defective if they are altered in any way, including but not limited to, damage upon installation, damaged by an outside force, changed with other LEDs not originally supplied, or similar LEDs after installation.

The Luminaire must:

- Be operating on the correct line voltage and under normal conditions and use.
- Be operating at or below the specified ambient temperature allowance specified on the manufacturer's driver label and/or product literature.

Lumax Lighting is not responsible for:

- Defects or failures in Components in the event of acts of nature; acts of God; exposure to chemicals (hazardous, corrosive, harsh cleaning or otherwise); vandalism; fire; power failures, spikes, surges or decreases; excessive vibrations; improper controlling or switching; infestation (animal, insect); improper installations; maintenance or service of; third party claims; or any other claims outside of Lumax Lighting's control.
- Component damage caused in transit, mishandling, misapplication, or by abnormal stresses, will void the warranty.

Lumax Lighting does not support labor allowance to be allowed without written authorization from Lumax Lighting. In no way does this state or imply that labor allowances will be considered or even authorized by Lumax Lighting.

Claims for defective components must be made directly to Lumax Lighting within 10 business days of failure, or the warranty is void.
