C48

Double Stem Canopy with hardware - less stem

SP

Ceiling Spacer for mounting to 4" outlet box or directly to ceiling. Spaces fixture 1 1/2" to 2 1/2" from ceiling.

JC

Chain Hanger Assembly - Includes two 42" chains and two 'V' hanger hooks.

2179P

T-Bar hanger for mounting standard 4 5/16" wide open channels and industrials flush to ceiling. Use two per fixture.

2181P

T-Bar hanger for mounting deep 4 5/16" wide open channels and industrials flush to ceiling. Use two per fixture.

2180P

T-Bar hanger for mounting standard 4 5/16" wide open channels and industrials 1 1/2" from ceiling. Use two per fixture.

2182P

T-Bar hanger for mounting deep 4 5/16" wide open channels and industrials 1 1/2" from ceiling. Use two per fixture.

Hangers can be mounted parallel or perpendicular to grid.

CD-WG48

Wireguard for 48" CD Series

CS-WG48

Wireguard for 48" CS Series

ER-WG48

Wireguard for 48" ER Series

ST-WG48

Wireguard for 48" ST Series

TR-WG48

Wireguard for 48" TR Series

TS-WG48

Wireguard for 48" TS & TV Series

PF-14

Plaster Frame - 1' x 4' Troffer

PF-22

Plaster Frame - 2' x 2' Troffer

PF-24

Plaster Frame - 2' x 4' Troffer

PF-44

Plaster Frame - 4' x 4' Troffer

	Catalog Number	Description
	20GA	20 gauge housing for fixture
	DG	Double Gasketing
	TG	Triple Gasketing
	FX1	6' 3/8" Flexible Wiring Harness with 3 #18 leads and 2 straight connectors.
	FX2	6' 3/8" Flexible Wiring Harness with 4 #18 leads and 2 straight connectors.
	MNL2	Mate and Lock Plug-in Wiring System - single circuit
	MNL3	Mate and Lock Plug-in Wiring System - dual circuit
	CP6	Grounded Cord Set - 6' long, 18 gauge, 3 wire #18SJT cord set wired to fixture, standard molded plug.
	RF1	Radio Interference Suppressor - 120 V/277 V minimizes interference from line radiation or feedback, one per fixture.
	RF2	Radio Interference Suppressor - 120 V/277 V minimizes interference from line radiation or feedback, one per ballast.
	F1	Fast Blow (GLR) Fuse and Holder for 120 V or 277 V, one per fixture.
	F2	Fast Blow (GLR) Fuse and Holder for 120 V or 277 V, one per ballast.
	PL7-NL	Night Light - PL 7 Watt
	PL9-NL	Night Light - PL 9 Watt
	PL13-NL	Night Light - PL 13 Watt
	EM1	Fluorescent Emergency Ballast - 500-600 initial lumen output - Operates one 20 W - 40W T8, T10 or T12 lamp, including U-shape, circline, energy saving or 4 pin rapid start long compact fluorescent lamp - Compatible with electronic, standard, energy saving and dimming AC ballasts

Catalog Number**Description**

EM1A

Fluorescent Emergency Ballast

- 350 - 450 lumens initial output
- Operates one 20 W - 40 W T8, T10 or T12, including U-shaped, circline, energy saving or 4 pin rapid start long compact fluorescent lamp
- Compatible with electronic, standard, energy saving and dimming AC ballasts

EM2

Fluorescent Emergency Ballast

- 1100-1400 lumens initial output
- Will operate two FO32T8 lamps at 1350 lumens
- Will operate two F40T12 lamps at 1100 lumens
- Operates one 17 W - 215 W (2'-8') T8, T10 or T12, or one 4 pin rapid start long compact fluorescent lamp
- Compatible with electronic, standard, energy saving and dimming AC ballasts.

EM2A

Fluorescent Emergency Ballast

- 600-700 lumens initial output
- Operates two (2'-4') T8, T10 or T12 lamps
- Operates one 20 W - 215W (2'-8') lamp, including U-shape, circline, energy saving or 4 pin rapid start long compact fluorescent lamp
- Compatible with electronic, standard, energy saving and dimming AC ballasts

EM3

Fluorescent Emergency Ballast

- 600-700 lumens initial output
- Two hour illumination with one 20 W - 40 W F40 T12 lamp
- 90 minute illumination with one 20 W - 215 W (2'-8') lamp including U-shape, circline, energy saving or 4 pin rapid start long compact fluorescent lamp
- Compatible with electronic, standard, energy saving and dimming AC ballasts

For fixture with lamps furnished and installed please consult the factory

Master/Satellite - labor saving tandem wiring system

TP

Vandal Resistant Door - Flat door secured by tamper-proof screw

AAI

Anodized Aluminum Insert - 86% minimum reflectance silver, anodized aluminum

EAI

Enhanced Anodized Aluminum Insert - 95% minimum reflectance silver, anodized aluminum
